

## Do we really need LCBO?

How many LCBO outlets do we really need?

There are now three relatively convenient LCBO outlets in Bolton, Schomberg and even Aurora, for those residents on the east side of the Township.

Councillor Peter Grandilli was quoted as saying he has been wanting to see an LCBO in Nobleton for a long time. This is not the first time the issue has been brought up. ?We missed the boat before, let's not miss it this time.?

Peter, once again, you are totally out to lunch on an issue!

Nobleton finally woke up to having a decent grocery store in No Frills and the residents have responded in numbers by shopping there! Good prices and service, that's what it's all about! Keep it up.

But having an LCBO in Nobleton, no way!

Much aside, at this particular point in time, when their employees are anticipating a possible strike and appear somewhat arrogant, surely not in Nobleton! We do not need it!

If there was the opportunity to buy some decent micro brewery beer or a local wine at a store in Nobleton, now you are making sense!
