By Mark PavilonsEditor

The meatless offerings continue to rise in the food industry. And our most loved comfort food ? pizza ? is no exception. Pizza Hut launched its plant-based Beyond Italian Sausage? Crumbles as a permanent offering. Available on three Beyond Meat® dishes, Beyond Italian Sausage Crumbles are designed to deliver the meaty texture and mouthwatering savoury taste that fans love about Pizza Hut's traditional Italian pork sausage. Staff sampled The Great Beyond?: A specialty pizza crafted with savoury Beyond Italian Sausage Crumbles, paired perfectly with fresh veggie toppings that include sliced red onions and tangy banana peppers. It was simply amazing. There's nothing on this pizza that disappoints and those who love sausage but are looking for an alternative will be impressed. I wasn't able to tell the difference. ?Pizza Hut and Beyond Meat have a shared vision to innovate new and exciting products that will delight our guests. Beyond Italian Sausage Crumbles offer a delicious plant-based twist on our classic pork sausage that you'll have to taste to believe,? said Amy Rozinsky, head of Consumer Marketing, Pizza Hut Canada.
